GENERAL INFORMATION

MANUFACTURING SURABAYA 2023

Manufacturing Surabaya 2023 is the dedicated annual exhibition for manufacturing Machinery, Equipment, Materials, and Services event. With East Java experiencing significant level of industrial growth, Manufacturing Surabaya is the perfect platform for industry professionals from the global manufacturing industry to showcase their latest products and meet the regions key decision makers - right in East Java's manufacturing heartland!

Co-located with four other industries events including Machine Tool Surabaya, Tools & Hardware Surabaya, Industrial Automation & Logistics Surabaya, and Packaging, Plastic, Mould & Die Surabaya, the exhibitions have become the most trustable and largest manufacturing trade show for machinery, supplies, and equipment exhibitions in East Indonesia – all under one roof!

EVENT INFORMATION

Edition	: The 17 th International Manufacturing Machinery, Equipment, Materials and Services Exhibition		
Date	: 12 – 15 July 2023		
Opening hours	: 12 – 14 July (Wednesday – Friday)	: 10.00 – 18.00 WIB	
	: 15 July (Saturday)	: 10.00 – 17.00 WIB	
Venue	: Grand City Convention & Exhibition Center, Surabaya - Indonesia

HOW TO VISIT THE SHOW

PRE-REGISTER HERE:

<https://Lead.me/mfsprereg>

Registration is queue-free and paperless!

We have no onsite registration forms, so scan the barcode here, and we'll see you on the floor!

WHY YOU SHOULD REGISTER ONLINE?

Avoid the long queuing

No waste carbon and helps save trees!

Save more time

WE PROVIDE VARIOUS WAYS TO HELP YOU REGISTER TO OUR SHOW!

If you are our gold visitor, you may collect your visitor badge upon presenting your visitor pre-registration code to our team at the **GOLD REGISTRATION** booth.

You can do the online registration at the venue (on-site) by scanning the barcode at the entrance gate.

Please go to the **ONSITE REGISTRATION** booth to do the self-registration by using the laptop we provide at the venue.

If you have any problems during the online registration, please go to the **HELP DESK** booth, so we can help you to check your data.

GENERAL INFORMATION

Admission to trade and business visitors only

Visitors in shorts, bermudas, singlets, slippers or sports sandals will not be allowed entry

No children under 18 years will be admitted

HEALTH & SAFETY STANDARD

Your safety is our utmost concern! We have safety standards at our events and we are committed to bringing the best services to the industry. Whether they are our exhibitors, visitors, speakers, sponsors, media, all customers can come to our events to connect, learn, know more, and as well as do more business – effectively, safely, and with confidence.

In a post-COVID-19 environment, all Pamerindo Indonesia events will continue to prioritise the health and safety of colleagues and customers, and in the first instance. It will be run in accordance with official government and local authority guidance, as well as any venue or location-specific regulations.

SUSTAINABILITY AT MANUFACTURING SURABAYA

Manufacturing Surabaya is proud to have a sustainable business model. To help meet the urgent challenges of a changing world, this means taking accelerated steps to reduce our carbon and waste footprint. Wherever we can, we are also actively helping our partners, customers, and wider markets – not to forget our community, to achieve the same.

So, join us and play your part!

Join our program and take part in our sustainable story. If your brand/company has started the sustainability program, let's spread the words as easy as sharing your story with us, Manufacturing Surabaya. Our team will be more than happy to share your story through our show's newsletter campaign.

Pssst.. A small reward will be provided during the show. What you should do:

1. Provide pictures of the activity, maximum 2 pictures in a total of 1MB. Don't forget to include your company logo.
2. Provide the story, maximum of 100 words.
3. You're our lovely exhibitor/association/supporting partner.
4. Ask if you have any questions, otherwise please provide all the data to Mr. Erlangga Muhammad, through email: angga.muhammad@pamerindo.com with the subject: Our Sustainability Story.

GO VISIT OUR 365 DIGITAL SHOWROOM NOW!

SCAN HERE TO ACCESS:

We are here to provide you an interactive and immersive experiences through our 365 DIGITAL SHOWROOM, where you can virtually explore and visualize the products that coming from our key players in manufacturing industry! It's accessible 24/7, you can browse products and view details, at anytime that is convenient for you, regardless of time zones or holidays.

Discover the latest innovations in the manufacturing industry and explore advanced technology solutions that can increase your production efficiency and business productivity.

PROGRAMME & ONSITE ACTIVITIES

● INDOESTRI AREA

INDOESTRI MADE IN INDONESIA

We are proud to collaborate with some of the best Indonesian manufacturing start-ups who will showcase their creations during the show. Come, meet, and support them at the INDOESTRI area.

Further information, please contact:

Mr. Erlangga Muhammad, email: angga.muhammad@pamerindo.com

● LIVE DEMO

See the latest technology and products from our key players in four days exhibition.

● BRING YOUR WORK GROUP TO MANUFACTURING SURABAYA!

Pamerindo Indonesia welcomes groups of team to the exhibition! Get a special treatment, where your visit will include a tour led by the Organiser, who will provide an overview of the exhibition, answer questions about the exhibitors, besides assist you to set the business meeting with our exhibitors who are the key player in the industries.

To schedule your visit or should you have any questions, please drop a message to: Ms. Nadia, email: nadia@pamerindo.com

Group Visits Guidelines:

- At least one week prior notice is required.
- The group visit required for at least 8 visitors from same company /factory.
- Groups are responsible for their own accomodation but Organiser will provide the shuttle bus.
- Must wear the company uniform during the visit.
- Group visits not available before 10.30 a.m and after 4 p.m.
- Free access to The Lounge.

● STUDENT VISIT

Inviting the students to the show to introduce the background of industry, business, machinery process, and more to prepare and develop the insight of the learner.

ABOUT THE ORGANISER

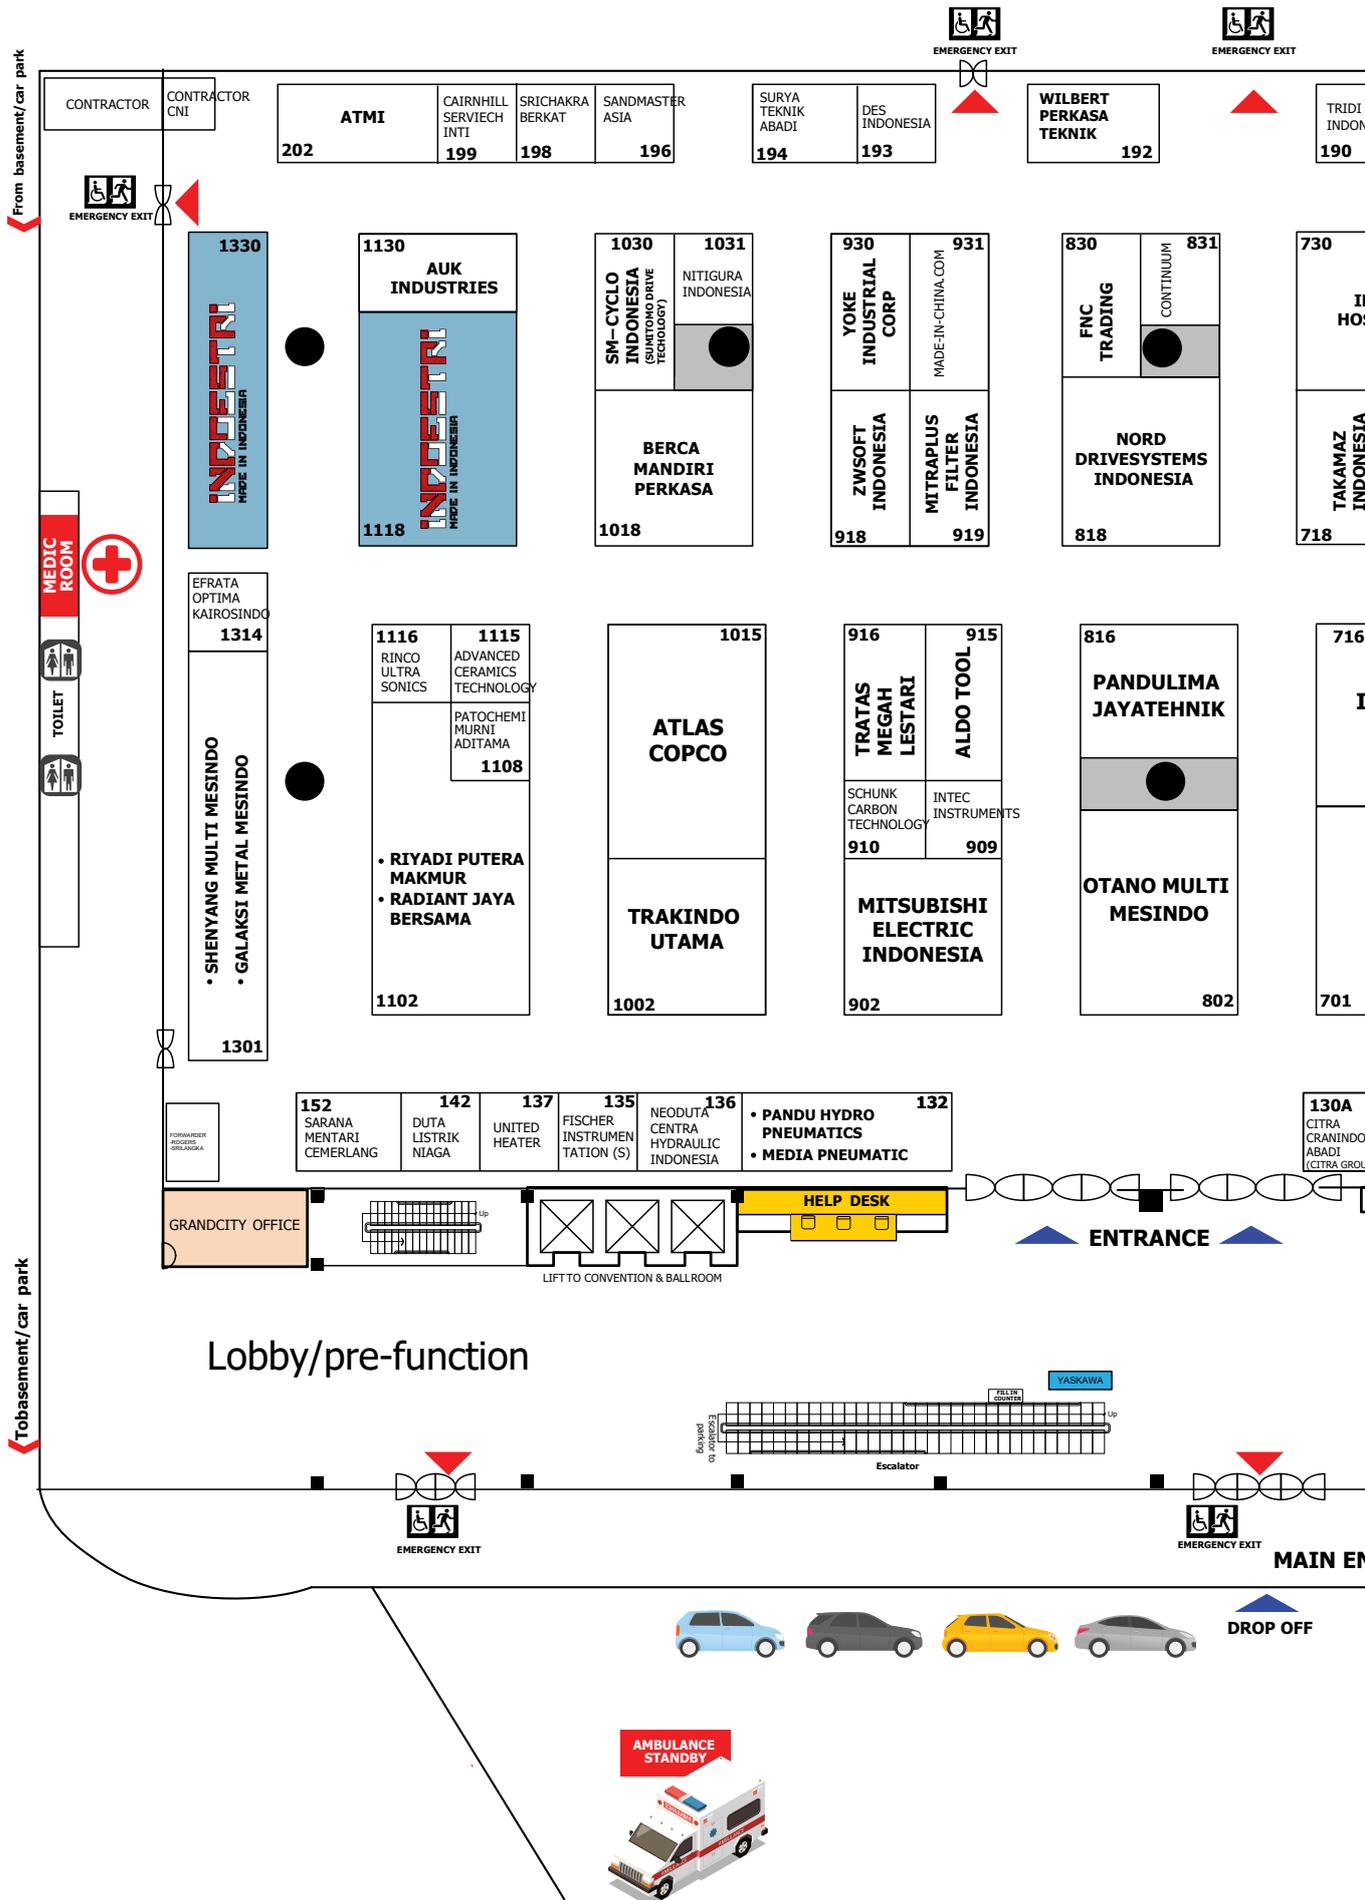

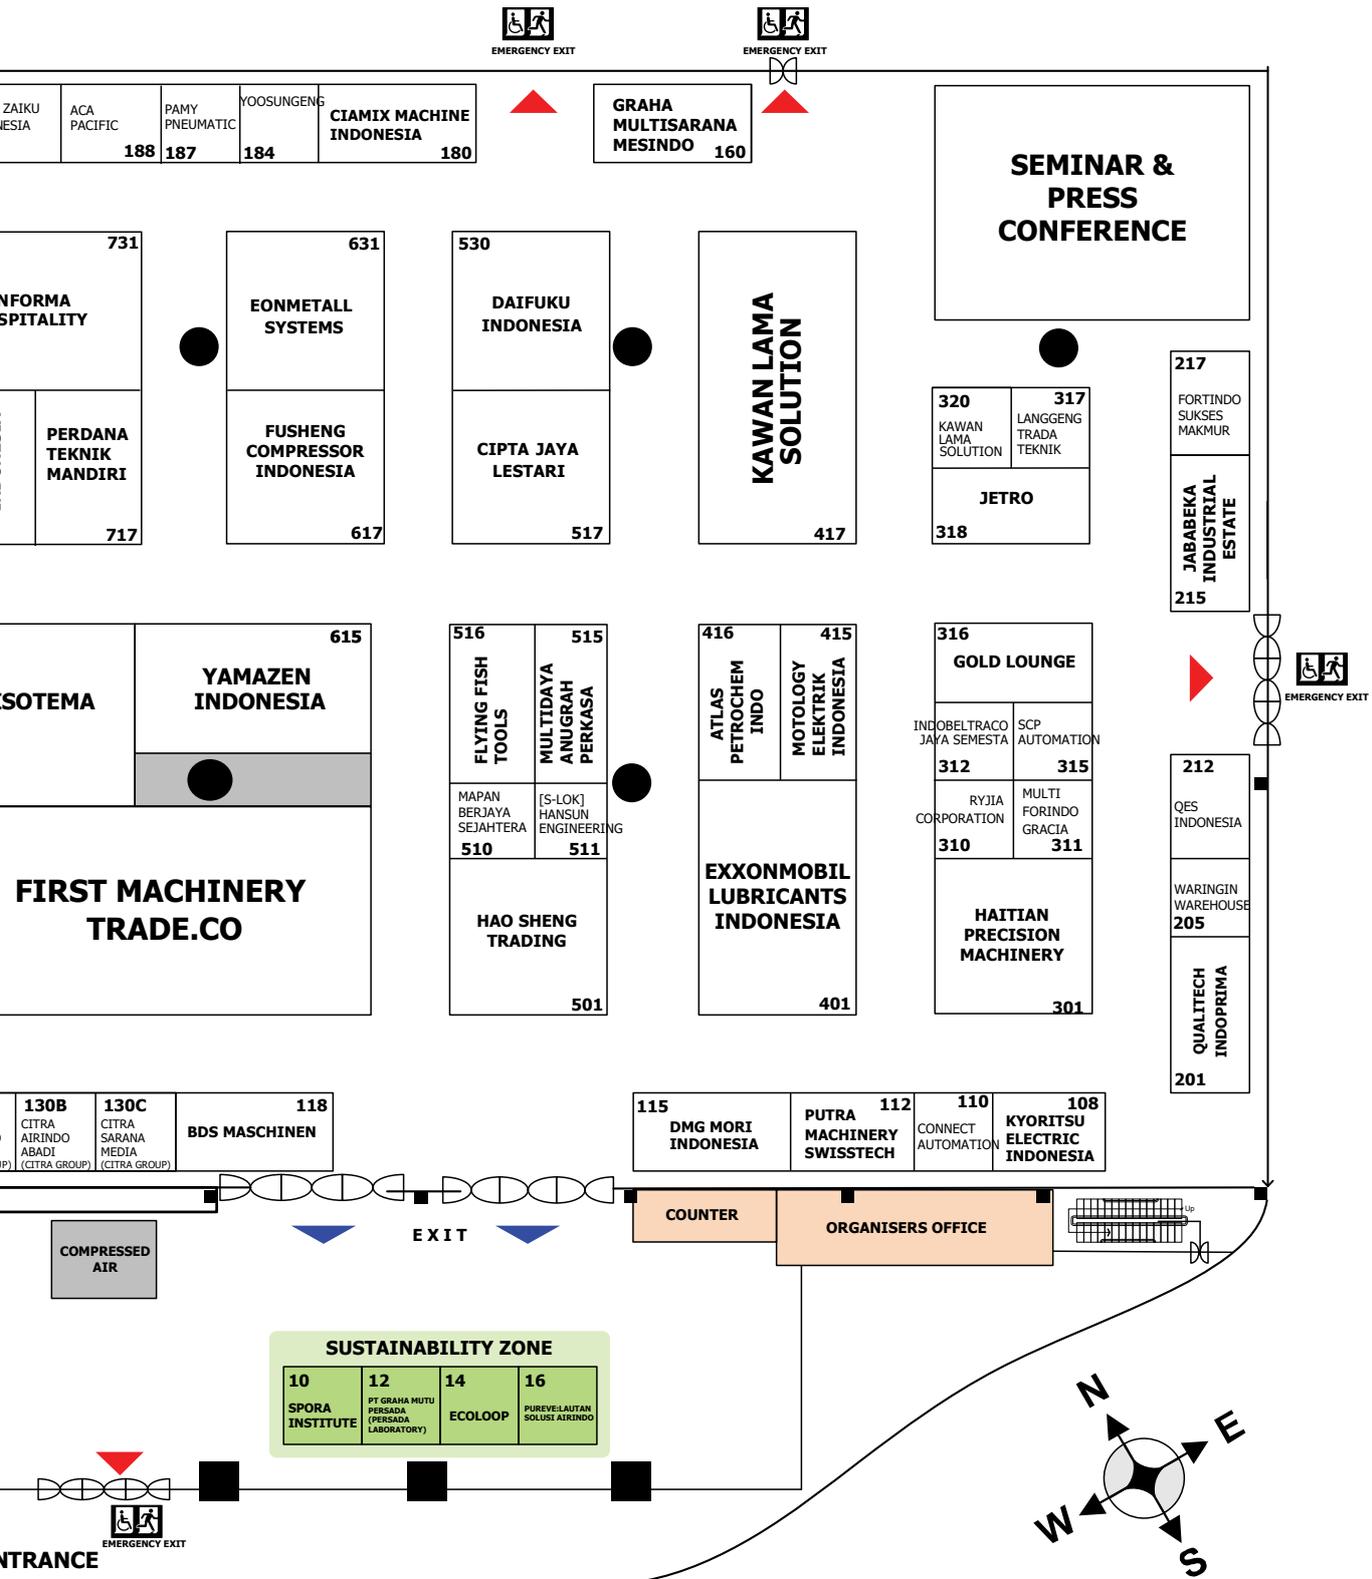

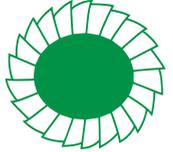

PT Pamerindo Indonesia is the leading trade fair organiser in Indonesia, established with the sole purpose of organising specialised trade exhibitions for the Indonesian market. The company has grown considerably and now regularly organises over 20 trade exhibitions in the following sectors: Beauty, Building & Construction, Electric & Power, Food & Hotel, Laboratory, Manufacturing, Mining, Plastics & Rubber, Oil & Gas sectors. Since its inception PT Pamerindo Indonesia has organised over 200 international trade exhibitions in Jakarta, Surabaya, and Bali.

PT Pamerindo Indonesia is part of Informa Markets, a division of Informa plc. Informa Markets creates platforms for industries and specialist markets to trade, innovate and grow. Our portfolio is comprised of more than 550 international B2B events and brands in markets including Healthcare & Pharmaceuticals, Infrastructure, Construction & Real Estate, Fashion & Apparel, Hospitality, Food & Beverage, and Health & Nutrition, among others.

We provide customers and partners around the globe with opportunities to engage, experience and do business through face-to-face exhibitions, specialist digital content and actionable data solutions. As the world's leading exhibitions organiser, we bring a diverse range of specialist markets to life, unlocking opportunities and helping them to thrive 365 days of the year.

SUSTAINABILITY ZONE

A PAMERINDO INDONESIA TRADE EVENT
MANUFACTURING SURABAYA

12 - 15 July 2023

Grand City Convention & Exhibition Center
Surabaya - Indonesia

SUSTAINABILITY AT MANUFACTURING SURABAYA

SUSTAINABILITY IS US! We know sustainability is increasingly important to our attendees and exhibitors, as well as to our market as a whole. Running an exhibition gives us lots of opportunities to improve our impacts environmentally, socially, and economically in our host cities. We want to make our event more responsible and play a role in helping our markets improve its own sustainability through connecting people with the networks and knowledge they want to help solve the big challenges in our sector.

SUSTAINABILITY AT INDUSTRY

Manufacturing Surabaya is proud to have a sustainable business model. To help meet the urgent challenges of a changing world, this means taking accelerated steps to reduce our carbon and waste footprint. Wherever we can, we are also actively helping our partners, customers, and wider markets – not to forget our community, to achieve the same.

ECOLOOP

Ecoloop is a trade name from PT Alton Waste Management. A member of the bigger Alton Group. Ecoloop was built with the main objective of supporting the Go-Green initiative by enabling the use of waste and recycled materials by sourcing them through proper channels. As one of the trusted recyclable waste suppliers in Indonesia, Ecoloop focusing on paper, cardboard, and plastic waste. Founded in 2021, Ecoloop is already trusted in June 2021 to supply cardboard as raw materials for PT Panca Kraft Pratama, Tangerang, with monthly supply volume of 3,000 tons. Currently, Ecoloop network covers Gresik, Tangerang, Surabaya, and Lampung, and we are always looking for opportunities to expand to other areas in Indonesia.

GMP

PT Graha Mutu Persada is a company engaged in the environmental laboratory which has been operating since 2015 and is located in Mojokerto Regency, East Java. Currently PT Graha Mutu Persada has provided environmental tests to health service agencies, government agencies, industrial companies, HORECA, and personal throughout Indonesia. In 2017, Persada Laboratory transformed into PT Graha Mutu Persada and has received KAN accreditation as a Testing Laboratory so that all services can be maximized. PT Graha Mutu Persada has been appointed by the Ministry of Manpower of the Republic of Indonesia as an Occupational Safety and Health Service Company (PJK3), certified ISO 9001, ISO 14001, Occupational Safety and Health Management System (SMK3), and Oil and Gas SKUP and registered as an environmental laboratory by the Ministry of Environment and Forestry (KLHK)

PUREVE

PT Lautan Solusi Airindo is part of PT Lautan Luas Tbk an Indonesian company which focused on providing water treatment products, consultation and services. Our goal under WaterCare concept is to achieve better quality of living and health in Indonesia.

SPORA INSTITUTE

Spora Institute is a knowledge base service that focuses on capacity building, manpower skills, and electric vehicle implementation strategic study for various sectors. We provide a Training center for EV mechanics/Technicians, business transformation consultation, and policy studies.

EXHIBITING COMPANIES

ACA PACIFIC, PT

INDONESIA

188

ACA Pacific is an established Regional Value-Added Distribution Company since 1986.

Serving the Asia-Pacific region for more than 30 years, our forte is in selecting and integrating the "Best-of-Breed" software and hardware to meet changing business dynamics.

CONTEC

Contec is a global electronics manufacturer and systems integrator. We specialize in embedded computing, industrial automation, M2M/IoT communication technology & IOT Gateway. Our products are used around the world in factory automation, transportation, medical and life sciences, robotics, security, energy, government, agritech and beyond.

ADVANCED CERAMICS TECHNOLOGY (M) Sdn. Bhd.

MALAYSIA

1115

Advanced Ceramics Technology Malaysia is the Manufacturing Centre for TheCrest Group, supplying ultrasonic equipment to all Crest Group member companies and prominent corporations around the world.

DIGITAL MODULAR SERIES (DMS)

The Crest DMS offers an expandable, versatile modular design that allows changes in wet process and design protocols — with or without automation.

Standard Plug-and-Play options include filtration, frequencies, automatic fill/drain, conductivity, and much more. And we offer new modules for passivation and vacuum drying.

ALDO TOOLS

INDONESIA

915

Your reliable partner for Tools & Machinery needs, providing you with constant evolving, modern, smart and innovative products.

TOOLS AND HARDWARE

Kita Menjual berbagai macam kebutuhan teknik, home industry, otomotif, bangunan, dan lain2.

ATLAS COPCO

INDONESIA

1015

Atlas Copco is a Swedish multinational industrial company that was founded in 1873 based in Nacka, Sweden. Our Compressor business area provides compressed air solutions: industrial compressors, gas and process compressors and expanders, air and gas treatment equipment, and air management systems. The business area has a global service network and innovates for sustainable productivity mainly for the manufacturing and process industries.

AIR COMPRESSORS

Oil Free air compressors, Oil Injected, VSD, piston and tooth compressors

SERVICE AND PARTS

We provide genuine spare part and service by certified technician for every Atlas Copco Machine

GAS GENERATOR

Produce your own nitrogen or oxygen gas in house with our industrial gas generator

ATLAS PETROCHEM INDO, PT

INDONESIA

416

PT. ATLAS PETROCHEM INDO

Our commitment continuously maintain product quality has enabled us to successfully disseminate and distribute Idemitsu products in 34 provinces. In order to meet consumer needs, we guarantee product availability at each of our distribution points. The products we offer maintenance oil, metal working oil, and grease to answer all the needs of consumers.

PT Atlas Petrochem Indo is an authorized distributor of Idemitsu lubricant products. We distribute world-class lubricants, both for the industrial and automotive market. Established in 1996, now our distribution points are spread throughout Indonesia with a total of 62 distribution points.

IDEMITSU

Industrial Grease, Automotive Grease, Transformer Oil, Hydraulic Oil, Gear Oil, Slideway Oil, Multi Purpose Oil, Turbine Oil, Compressor Oil, Vacuum Pump, WSCO, NCO, Heat Treatment, Cleaner, Rust Preventive,

AUK INDUSTRIES PTE. LTD.

INDONESIA

1130

Auk.Industries

Deep data. Feather-light IoT.

Auk Industries is a disruptive end-to-end technology provider for Industrial IoT. Analogous to "Fitbit-for-machines", our cost-effective universal IoT devices can be quickly deployed in minutes onto a diverse range of industrial machines to stream vital machine stats to the secured cloud platform in real-time, making ops data available to users anytime on dashboards, computers or mobile devices.

IoT-POWERED OPS-ANALYTICS SOLUTION

The universal plug-and-play IoT system can be deployed onto any machines without additional investment in IT-infrastructure. The software analytics platform is ready-to-use and can be set up in a day.

BDS MASCHINEN

GERMANY

118

Made in Germany, Trusted Worldwide
The magnetic drilling machines, annular core cutters and plate beveling machines by BDS Maschinen GmbH are completely manufactured in Germany and trusted by metal working professionals worldwide. With the introduction of the new generation of magnetic drilling machines, BDS sets a new benchmark in metal core drilling technology

BDS MACHINES MAB1300 MAB 1300 THE STRONGEST OF THE STRONG

Superior performance with exceptional power delivery. Equipped with Servo Assist Power Feed, which works like a power steering of a car, making the drilling effortless.

Pure power! 2,300 W motor power, four speeds and a full package of features leave nothing to be desired. The MAB 1300 magnetic drilling machine goes to the limit of magnetic core drill technology.

BDS MACHINES MAB 155 MAB 155

THE SMALL MACHINE WITH HUGE POWER
Horizontal magnetic core drilling machine with an angular gearbox. Ideal for drilling in extremely confined spaces.

The MAB 155 horizontal magnetic drill machine is a handy and compact machine for drilling in confined spaces. It's now equipped with a new powerful motor. The MAB 155 horizontal magnetic drilling machine is with ratchet for optimum handling.

BDS MACHINES PIPEMAB525

PipeMAB 525
STRONG GRIP ON PIPES & CURVED SURFACES

Pipe Drilling + Tapping Machine With Special Magnetic Adhesion System. Powerful magnetic adhesion force up to max. 1020kg (20 mm material thickness / S 275 JR). The new PipeMAB magnetic core drilling machines from BDS Maschinen, Made in Germany. The patented pipe magnetic clamping system with two permanent magnets automatically adapts to the pipe diameter. The swivel arrangement of the permanent magnets allows pivoting to conform to any pipe 85 mm (3") diameter or larger, on straight surfaces as well as inside and outside of the curve surfaces. Result: Fast, accurate and safe drilling with the BDS PipeMAB series.

BERCA MANDIRI PERKASA, PT

INDONESIA

1018

PT. BERCA MANDIRI PERKASA

PT. Berca Indonesia was founded in 1971 as a subsidiary of Central Cipta Murdaya (CCM) holding company and its operations are Trading and Contracting Company. PT. BERCA MANDIRI PERKASA was established in 2004 and originally well-known as PT. Berca Indonesia. As a subsidiary company of PT. ALTRAK 1978 and share the network in certain areas the company is capable to provide adequate product support and coverage in Indonesia. Over the last three decades, BERCA has received an enviable reputation for a great loyalty to its principles, and providing excellent services to its customers

MITSUBISHI AND NICHiyu FORKLIFT

Mitsubishi and nichiyu Forklift Trucks has developed a range of trucks that combine high specifications and performance with competitive prices to deliver outstanding value for money.

BYD forklift

BYD's lithium iron-phosphate battery chemistry is completely nontoxic, offering the industry's safest and longest-lasting power source. Founded as a battery company in 1995, BYD is now one of the world's largest battery manufacturers, producing 40 GWh of battery capacity in 2019 and ramping up to produce 65 GWh in 2020.

BERCA POWER

POWERED BY
Cummins WEICHAI MITSUBISHI
Baudouin BaiFa

Berca Power Gensets

Berca Power genset are high reliability, low applied cost has won the manufacture, properties, plantation, mills, mining and other industry preference power by cummins, baifa and weichai.

EXHIBITING COMPANIES

CAIRNHILL SERVICECH INTI, PT

INDONESIA

199

Cairnhill Metrology is an industrial metrology solutions provider. Working with a long-term view, we partner with principals who are global leaders in their fields, whose strengths in technology and innovation, we complement with up-to-date uniform high standards of service delivery through our network of offices in Singapore, Malaysia, Indonesia, the Philippines and Thailand. We are certified to ISO/IEC 17025:2017 Laboratory Accreditation in Singapore, Malaysia, Thailand and the Philippines by Singapore Accreditation Council (SAC-Singlas) and in Indonesia by Komite Akreditasi Nasional (KAN).

X-Ray Inspection Systems for pharmaceutical and food products

Equipped with a new High Resolution Dual Energy Sensor for enhanced detection performance such as minute bones and metals

Metal Detector for Inspection Systems for pharmaceutical and food products

Anritsu's metal detectors detect metal contaminants including ferrous, stainless steel and aluminum. Anritsu's exclusive technology and expertise deliver highly accurate, reliable, easy to clean metal detection solutions.

Hexagon Absolute Arm

Potable Coordinate Measuring Machine, The Absolute Arm is made for measurement anywhere, from the quality room to the shopfloor, from the design table to a milling machine, from air-conditioned stability to humid and dusty workshops. Full IP54-rated protection – a world first for a portable measuring arm – supports this go-anywhere measurement concept, along with the Absolute Arm's easy portability and simple usability.

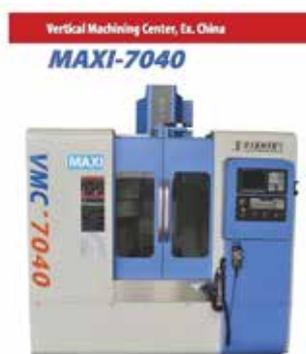

CIAMIX MACHINE INDONESIA, PT

INDONESIA

180

PT. Ciamix Machine Indonesia is trading company and supply good quality of Machine Tool and Sheet Metal Working Machine. We have experienced more than 15 years and have good experience engineer. We supply Conventional and CNC Machines such as : Lathe Machine, Milling Machine, Wire Cut Machine, EDM Machine, Shearing and Press Brake Machine, Power Press Machine, Band Saw Machine, Flat Bed CNC Lathe Machine, VMC Machine, Slant Bed CNC Machine.

CITRA AIRINDO ABADI, PT (CITRA GROUP)

INDONESIA

130B

PT. CITRA AIRINDO ABADI

PT. CITRA AIRINDO ABADI (CITRA Group), established in August 2006, is a company specialized in Compressed Air Systems sales, consultation and services. Has installed 2.920 units air screw compressors for more than 1.060 customers by Maret 2023. The Company has become the largest HITACHI Air Compressor products authorized master dealer in Indonesia serving wide range of industries including, electronics, automotive, power plant, petrochemical, textile and food&beverages. Our strengths in both products quality and service allow us stand out among the competitors. We take responsibility for every products/services we sell. Our sister company is PT. Citra Sarana Media and PT. Citra Cranindo Abadi.

HITACHI SCREW AIR COMPRESSOR (Oil free and Oil Flooded Type)

HITACHI Rotary Screw Compressors offer wide range of choices up to 500 KW, from standard oil injected type to oil free screw compressor for clean air application with long years of experience. This type of compressor is different from other types of piston compressors, more durable and stubborn in usage, screw compressors can run 24 hours non-stop is different from a piston compressor whose maximum usage is in the range of 8 hours. Screw compressors usually have a much larger air flow delivery compared to piston compressors. Screw compressors are one of the most widely used in industry.

RECIPROCATING AIR COMPRESSOR (Oil free and Oil Flooded Type)

The Reciprocating Air Compressor (Hitachi Bebicon) is an industry-class piston compressor designed to operate for long periods of time per day up to 15 KW Motor Range. There are several types of Hitachi reciprocating air compressors, namely: Oil Flooded Bebicon, Oil Free Bebicon, Oil Free Booster, Package Bebicon Oil Free & Bebicon Packages Oil Flooded. Type of air compressor with oil lubrication suitable for industry manufacturing, automotive service workshops and pneumatic tools. While the type of air compressor without oil lubrication is suitable for manufacturing industries from electronics to Food and Beverages.

CITRA CRANINDO ABADI, PT (CITRA GROUP)

INDONESIA

130A

PT. CITRA CRANINDO ABADI

PT. CITRA CRANINDO ABADI (CITRA Group) is a company specialized in Mechanical Handling solution, providing hoist and crane sales, consultation, and services. We sell average more than a 500 unit of hoists yearly and have become the largest HITACHI Electric Chain Hoists & Rope Hoist authorized master dealer in Indonesia serving a wide range of Industries including electronics, automotive, power plant, petrochemical, textile, and food&beverages. With sufficient unit stocks and parts, our well-trained and dedicated people are able to provide 24/7 customer support, either through maintenance. Our Sister Company is PT. Citra Airindo Abadi and PT. Citra Sarana Media.

ELECTRICAL CHAIN HOIST

- ELECTRICAL CHAIN HOIST
- STANDARD TYPE (S-SERIES)
- HIGH SPEED TYPE (F-SERIES)

Electric Chain Hoists are used in a wide range of applications normally up to 5 ton to make cargo handling more efficient. A wide range of applications are provided for not only general machinery, automobile, can manufacturing and other plants but also for applications from primary to tertiary industries including warehouses and retail stores.

ELECTRICAL WIRE ROPE HOIST

- ELECTRICAL WIRE ROPE HOIST
- A-SERIES HOIST
- V-SERIES HOIST

Electric Wire Rope Hoist (A-Series & V-Series) is a hoist with steel wire, reliable to be used in production facilities, warehouses, freight elevators and other. This model offer higher duty cycle and longer operation time up to 50 ton.

CRANE SYSTEM & ACCESSORIES

Crane is a series of material handling systems to facilitate production. We as a crane fabricator with a team that is experienced in this field, providing quality production according to standards and crane systems, supported by workshops and our competent teams in Jakarta and Surabaya. Making it easier to reach our customers.

EXHIBITING COMPANIES

CITRA SARANA MEDIA, PT (CITRA GROUP)

INDONESIA

130C

PT. CITRA SARANA MEDIA

PT. CITRA SARANA MEDIA (CITRA Group), established in 2002, is leading company specialized in Clean Air System Solution and Air Audit. We do this by gaining deep understanding of our client's needs and business objectives and then applying our technical expertise, innovative ideas, and resources to achieve those target. Our aim at PT. Citra Sarana Media is to support our client's growth, profit and goals by delivering innovative solutions. PT. Citra Sarana Media thrives to provide highly reliable, well-designed and technically excellent products and services with competitive price. Our Sister Company is PT. Citra Airindo Abadi dan PT. Citra Cranindo Abadi.

MARK & SUTO

MARK

PT. Citra Sarana Media was appointed to be Indonesia Regional Distributor for MARK screw air compressor. For Indonesia market, we will only promote MARK's Oil Injected Screw Air Compressor 7.5-75kw range, as well as a complete range of Refrigerated Dryers before we start to widen our air compressor range in the near future.

SUTO

SUTO provide innovative solutions for compressed air flow & gas measurements.

ORION & DELTECH

ORION

Striving to make products that move you. At ORION we have consistently developed customer-oriented "monozukuri" manufacturing techniques. Since the time after the war when our company was established, we developed a wide range of products that had never before been produced in Japan, and we take pride in the fact that we have been able to shoulder our part as a driver of industry.

DELTECH

Deltech is a band SPX FLOW, a global public US base in Charlotte, North Carolina, USA. Deltech offers compressed air filtration systems, refrigerated dryers (using innovative phase change materials), desiccant air dryer & others.

NANO & INMATEC

NANO

Our backgrounds are in air and gas purification and our experience in this field spans a wide range of industries. We combine this knowledge and experience to ensure our products and services are designed and provided to meet the objectives and expectations of you - our customer.

INMATEC

INMATEC is an international market leader in the production of nitrogen generators and oxygen generators. Developed and produced in Germany, our systems are used all around the world. INMATEC stands for innovative technology from over 25 years of research and development "Made in Germany"!

CONNECT AUTOMATION

Connect AUTOMATION

Industrial Assembly System

PT. Envioneer adalah perusahaan engineering manufaktur untuk solusi industri dengan merek Connect Automation. Kami telah beroperasi sejak tahun 2006 di Surabaya sebagai head office & main workshop, serta memiliki kantor cabang dan workshop di Jakarta dan Semarang. Kami spesialis dalam menyediakan solusi industri kepada customer. Sejak Januari 2017 kami telah memperoleh dan mempertahankan sertifikasi Sistem Manajemen Mutu ISO 9001:2015 hingga saat ini.

Belt Conveyor and Roller Conveyor

Belt Conveyor & Roller Conveyor adalah product Connect Automation yang terlaris saat ini, yang paling banyak disupport Connect Automation di berbagai industri sebagai alat transfer barang di lini produksi. Material belt yang digunakan bergantung pada karakteristik barang yang akan dipindahkan dan proses yang dilakukan misalnya sortir, perakitan, packing, hingga logistik & distribusi.

Modular Belt Conveyor

Modular Conveyor adalah conveyor yang beltnya terdiri dari susunan modul-modul plastik yang dirakit menjadi satu menggunakan tangkai penyambung. Conveyor ini banyak digunakan di industri F&B (Food & Beverage), FMCG (Fast Moving Consumer Goods), Cosmetic, Pharmaceutical, dan sebagainya. Modular belt dapat dengan mudah dan cepat diganti jika terdapat kerusakan, sehingga meminimalisir down-time saat perbaikan.

Table Top Chain Conveyor

Table Top Chain Conveyor terdiri dari material modul plastik atau stainless steel yang dirangkai menjadi satu belt dan biasanya digunakan pada barang yang perlu ditransfer secara rapi berjejer dan terus-menerus. Conveyor ini biasanya memiliki lebar yang lebih kecil dan banyak diaplikasikan pada proses filling, labelling, printing di industri minuman, farmasi, kosmetik, cooking oil, dan lain sebagainya.

CONTINUUM

SINGAPORE

831

continuum

Founded in 2015 as Molyworks, Continuum is a sustainable metal recycling company, with locations across the United States and in Singapore. Inventor of The Greyhound, a patented compact foundry revolutionizing metal manufacturing, Continuum manufactures high-quality metal powders from 100% recycled metals for a variety of additive manufacturing and powder metallurgy applications.

High Quality, Gas Atomised, Spherical Metal Powders

Continuum's revolutionary Optipowder is engineered exclusively from recycled materials. Circulating those materials back into the manufacturing pipeline, in the form of the highest quality powder. Enabling a more sustainable planet by empowering the global normalization and utilization of a circular economy.

DAIFUKU INDONESIA, PT

INDONESIA

530

DAIFUKU

Automation that Inspires

As 2022, Daifuku is No. 1 Material Handling Supplier in the world by Modern Material Handling (MMH). We have refined our expertise not only as a manufacturer but also as a system integrator, so that we can provide precise solutions to the challenges faced by customers across a variety of industries. We provide total support ranging from consulting to after-sales service, and offer 24-hour support, remote monitoring of equipment operation and preventive maintenance services.

Automatic Storage and Retrieval System

Provides automated storage, transport, sorting and picking systems that are optimized for each customer, to distributors including e-commerce, retailers, wholesalers, transportation and warehousing, and to manufactures including food, pharmaceuticals and chemicals. We deliver the smart logistics sought by customers by incorporating cutting-edge technologies such as IoT and AI.

Automobile Production Line Systems

For more than half a century, we have provided automobile manufacturers worldwide with systems that support their manufacturing operations. In the ever-evolving automobile industry, we use our extensive know-how and technologies to respond to sophisticated and diversified demand, as well as develop pioneering systems that support parts logistics and other areas in automobile manufacturing.

DMG MORI INDONESIA, PT

INDONESIA

115

DMG MORI

DMG MORI is a worldwide leading manufacturer of high-precision machine tools and sustainable technologies that are at the center of global value chains. In the "Global One Company", more than 12,000 employees are in direct contact with over 100,000 customers from 57 sectors. DMG MORI is present in 88 countries worldwide with 16 production plants, 113 sales and service locations.

Integrated automation and end-to-end digitization solutions extend our core business with turning and milling machines, Ultrasonic, Lasertec and Additive Manufacturing. Our customer-oriented services cover the entire life cycle of a machine tool – including training, repair, maintenance and spare parts service.

CNC Lathes (Turning Center)

With over 150 years of experience in turning, DMG MORI offers comprehensive technological expertise, reflected in around 20 different series of CNC lathes. As a machine tool manufacturer, we build lathes for a wide range of applications, from versatile universal lathes and innovative turn-mill centres (Turn & Mill) to highly economical production turning centres.

5-Axis Milling Machine

As world market leader in 5-axis milling machines, we offer you the whole range of universal milling machines. Volumetric precision to within 15µm, work pieces weighing up to 120t or machining paths up to 6 metres – with our 5-axis milling machines, anything is possible. Our universal machining stations with automated features, such as the palette changer or the workpiece management system bring together maximum versatility, high-performance cutting dynamic precision and optimal accessibility. From automated 5-side machining up to challenging 5-axis simultaneous milling – with 5-axis milling machines from DMG MORI you are in the safest of hands.

Automation of CNC machines

Against global competition, companies face the challenge of implementing efficient production. In the 21st century, machine tool automation is the key to economical manufacturing processes. Automation solutions used to be a topic primarily for large series production, but the trend today is towards more varied production with ever smaller batch sizes. As a leading machine tool manufacturer, DMG MORI will demonstrate how to ensure long-term competitiveness by using automated production.

EXHIBITING COMPANIES

DUTA LISTRIK NIAGA, PT

INDONESIA

142

We appointed as Fuji Electric sole agent under the name of DUTA FUJI ELECTRIC for Distribution and Control Components in 1979 and in 2000 adds Fuji Electric Variable speed drive as new line up product. Duta Listrik Niaga officially established only focus on component distributor.

Fuji Electric

Provide for electrical distributions and control component such as Command switch, Motor starter (contactor, TOR & MMS), Circuit Breaker (MCB, MCCB, ACB and VCB) and Vacuum circuit Breaker. We can provide up to 36kV and 6300A of circuit breaker

EFRATA OPTIMA KAIROSINDO, PT

INDONESIA

1314

PT. Efrata Optima Kairosindo is a distribution company founded in 2018. We are an authorized agent of GEMA Switzerland GmbH, a world leading supplier in electrostatic powder coating industry. We have been in the powder coating industry for 30 years (successor of PT. Hardaguna Polatama).

In line with the vision of becoming a leading company in the industrial finishing system field, we are currently also entrusted to be an agent by AABO Ideal A/S, a supplier of finishing lines from Denmark.

GEMA

Gema Switzerland GmbH is a leading supplier in the area of electrostatic powder coating with a worldwide presence. From simple hand coating through to fully automated powder coating, this Swiss company offers solutions that meet the high demands and requirements of customers around the world in a wide range of industrial sectors. Since 2012, Gema has been a part of the global Graco Group, an internationally leading manufacturer of liquid conveyance systems and components.

BASF - CHEMETALL

The Surface Treatment global business unit of BASF's Coatings division, operating under the Chemetall brand, is a leading supplier of applied surface treatments. Chemetall develops and manufactures tailor-made technology and system solutions for applied surface technology. The products protect metals from corrosion, facilitate forming and treatment, prepare parts optimally for the painting process and ensure excellent coating adhesion.

AABO - IDEAL

We develop, produce and sell high quality and customized turnkey solutions for surface treatment lines. Having industrial finishing systems as our expertise for more than 60 years makes us a key player in the market. When you need to work with a partner who can supply industrial surface treatment systems for powder coating, e-coat and wet paint at their very best, we will be your choice of reason.

EONMETALL SYSTEMS SDN. BHD.

MALAYSIA

631

Eonmetall was established since 1990, a public listed corporation in Malaysia. We emphasize on quality products catering for today's competitive and demanding business environment; using the advantage of technology supplement with stringent quality control systems to ensure high production standard are met.

Eonmetall's uncompromising principle in providing the finest quality of products to all of the customers; products & services reach out to an extensive market around the globe with a strong market presence in ASEAN, Asia, Asia-Pacific, Middle East & North Africa (MENA), and Europe.

Warehouse Racking System

With maximize your current space or your new warehouse, racking systems can be one of the best solutions to accelerate your warehouse operations. Eonmetall equipped with full range of racking systems that will provide you the one that suit to you.

EXXONMOBIL LUBRICANTS INDONESIA

INDONESIA

401

ExxonMobil Lubricants Indonesia provide the industrial lubricants trusted by worldwide equipment builders and we can help you find which is right for your specific equipment. With more than 150 years of expertise in industrial lubrication, Mobil™ has the lubrication expertise and know-how to keep your operation running smoothly.

Mobil DTE™ 20 Ultra Series

Mobil DTE 20 Ultra series oils are high performance anti-wear hydraulic oils with extended oil life capabilities and have demonstrated up to 2 times longer oil drain intervals versus similar competitive oils

Mobilgear 600 XP Series

Mobilgear 600 XP Series are extra high performance gear oils having outstanding extreme pressure characteristics and load-carrying properties, intended for use in all types of enclosed gear drives with circulation or splash lubrication systems.

This is only small sample of hundreds of new product which will be on display at the show. It's based on information provided by exhibitors as of 22nd of June, 2023. NOTE: this list is NOT comprehensive. The layout of the buyer's guide is subject to Pamerindo's approval.

FIRST MACHINERY TRADE. CO

INDONESIA

701

First Machinery Trade Co (FMTC) known as a company that engaged in trading business as a supplier and distributor for various machines especially for computerize numerical control (CNC) machines. We provide the best quality that supports automotive industry, mining & heavy duty equipment industry, mold & dies industry, including railway & aircraft industries.

DN SOLUTIONS DNM5700

The DNM Series delivers the most value for your investment as the best-in-class vertical machining center fully equipped with the most standard features built-in. This powerfully productive machine features a BIGPLUS spindle, dual chip augers, FANUC Oi-M controls with DN Solutions (formerly Doosan Machine Tools) Easy Operation Package (EOP), through-spindle coolant, spindle chiller, and more. SODICK WIRECUT ALN600G

The ALN600G iGE, Rigid Linear Motor Driven High-Performance Wire EDM Machine incorporates Sodick's next-generation SPW (Smart Pulse Wire) control with the Smart Pulse Generator and technologies that improve cutting speed and precision. The ALN also streamlines the control design, combining the best functions of both tablet interface and classic interface into a highly functional work display, improving processing responsiveness.

FISCHER INSTRUMENTATION (S) PTE. LTD.

SINGAPORE

135

Fischer Instrumentation is a subsidiary of Helmut Fischer that specializes in coating thickness measurement, analysis, nanoindentation, and material testing. Fischer has been committed to these fields for over 70 years.

The FISCHERSCOPE® X-RAY XAN® 500

The FISCHERSCOPE® X-RAY XAN® 500 is the most versatile X-ray fluorescence (XRF) system available. As a handheld XRF analyzer, it's perfect for inspecting coatings on bulky items like airplane parts, pipes or turbine blades in a running production line. In contrast to other portable XRF devices on the market, the FISCHERSCOPE XAN 500 determines coating thickness very precisely. Its 3-point support makes it easy to place correctly and keeps it stable during the entire measurement. A high-quality silicon drift detector (SDD) ensures the precision needed to analyze alloy layers such as zinc-nickel.

DMP Series

The new DMP series sets the standard for tactile and non-destructive coating thickness measurement of magnetized and non-magnetized base materials. The robust and modern design, optimized functionalities, digital probes, and intuitive Tactile Suite software make these compact handheld devices your perfect companions for any measuring requirement.

Phascope PMP10 Duplex

Looking for a car paint thickness gauge to measure duplex coatings (paint/zinc) on aluminum or galvanized steel substrates? The answer is Fischer's PHASCOPE® PMP10 DUPLEX. The automotive sector considers it the best paint meter for processing sheet metal, brake line tubing, wire and other industry-typical applications. Improve your quality processes and save time with the ultimate automotive coating thickness tester: the PMP10 DUPLEX from Fischer. When paired with the ESG20 probe, the PHASCOPE PMP10 DUPLEX offers many features that can save time and improve quality assurance processes in automotive manufacturing. This thickness gauge measures both the paint and the zinc layers in one go – and displays them separately on the screen. The automatic substrate recognition feature makes it easy to measure on steel or aluminum without needing to switch probes.

Modula

Modula automated vertical storage solutions

Created to make the most of available vertical space and save floor space at the same time, Modula automated vertical storage solutions are suited to any type of product, in any industry sector or environment, and can be customised to various payloads, heights, sizes and options. Modula automatic vertical tray warehouses allow you to store goods in a clean, tidy, safe and fast-moving system, reducing the number of movements operators need to make and avoiding damage to your goods. Modula automatic vertical storage solutions are designed to save space and time and improve process efficiency.

The automatic vertical tray warehouses were designed according to the "goods-to-man" principle: there is no need for operators to move around the warehouse to pick or refill your goods. Instead, the products are brought directly to the picking bay. The picking bay can be customised for various configurations depending on clients' varying requirements.

Proper picking management within industrial warehouses translates into competitiveness on the market, especially given the decisiveness of performance in terms of the speed of management and fulfilment of orders.

All operator activity can be tracked and picking errors can be reduced to an incredible extent, courtesy of simple and intuitive visual aids

CNC MILLING VMC 1160

BENEFITS :

- Machine design with quality, reliability, User friendly and safety
- Stable quality products for Industrial grade machining center
- International warranty for controller

MBS has been consistently working from designing to manufacturing and repairing of marine related technical engineering products. The spirit of "solving problem through engineering" from the founding is alive through the development of in-house high-quality custom-made products and our repair service capability. Together with our experienced human resources we will take on the challenge of becoming the No. 1 technical engineering of high-performance marine parts.

PRECISION PART
Various industries such as automotive, sheet metal, heavy industry, food and beverage, mold and dies, etc. Our commitment pays off and enables us to manufacture specific spare-part components either in general or custom, with a very high level of complexity and precision.

EMC Pneumatic

E.MC sticks to the core value of "innovation creates value" as always. The E.MC pneumatic components technology study changes from mechanical machining mainly to more.

CKD Pneumatic

Kami menawarkan berbagai teknologi dan berbagai macam produk. Pemanfaatan teknologi luas dan teknologi terdepan orisinal yang berguna dalam berbagai bidang industri. Sejak awal berdiri, CKD telah meneliti dan mengembangkan berbagai macam produk sambil terus memprediksi dan memenuhi kebutuhan masa depan sebagai pelopor dalam teknologi otomasi. Hari ini, Formasi produk kami memiliki puluhan ribu item, dan kami memainkan peran aktif dalam berbagai bidang industri. Dengan kekuatan teknologi kami yang komprehensif, kita dapat mengembangkan produk yang kreatif dalam kelompok bersama pelanggan.

Chenying Lubrication System

The Leading Brand of Industrial Lubrication Systems
 Changhua Chen Ying Oil Machine is the leading brand in the centralized lubrication systems industry. The company was established in 1978, specializing in oil and grease lubrication products, such as manual lubricators, electric lubricators, oil pumps, oil and grease distributors, and a complete range of accessories

MITRAPLUS FILTER INDONESIA, PT

INDONESIA

919

PT. Mitrplus Filter Indonesia is committed to provide advancing support in the industrial sector by meeting the needs of manufacturing companies for high quality air filtration products and optimal service for machine maintenance

SCR Compressor Unit

Compressor unit is a machine to produce compressed air which is used as a power source for production machines in factories

M-Plus Filter Element

Filter element improves the quality of the resulting compressed air pureness by filtering the air produced by the compressor. So that the compressed air will not contain particles that can damage factory machines

M-Plus Filter Air Dryer

The air dryer unit ensure that the compressed air produced is completely free of water content. Because the moisture contained in compressed air can harm factory production machines

e-F@ctory Solution

The industrial world has come to a major turning point with the introduction of the Internet of Things (IoT). The key to surviving today's severe market competition is the prompt and timely implementation of IoT/ optimization; not only on the production shop floor, but also throughout the monozukuri field. In response to this need, we developed the "e-F@ctory" FA-IT integration solution. At its core is "edge computing," advanced technologies that utilize AI to collect data from the production shop floor and analyze it in real-time, thereby improving monozukuri.

CNC M800V/M80V Series

The evolution in smart manufacturing. Our new CNC with Industry-first built-in wireless LAN, which allows an operator to manage machining at a distance, high-definition 3D machining simulation, which minimizes trial cutting, and advanced user-friendly and intuitive operation will streamline overall manufacturing processes and unlock 'time' that has been unnoticed so far.

MP Series – Ultrahigh precision wire-cut EDM.

Machining accuracy & Stability
Next-generation drive system and optimum machine structure
* Equipped with a linear shaft motor (LSM)
* Circular accuracy within 1 μ m is realized using optical drive system (ODS).

MOTOLOGY ELEKTRIK INDONESIA, PT

INDONESIA

415

Our company is a private enterprise integrating research and development, manufacturing and marketing, specialized in large, medium and small sized AC motors. Our motors have obtained CCC, ATEX, CE and Rohs approval, while explosion-proof series motors have gained certificates including MA certificate.

YBX3 series premium efficiency flameproof three phase asynchronous motor

It is totally enclosed, self-fan cooling, squirrel cage type. The efficiency class is in accordance with Chinese national standard GB18613-2020 class III, as well as IEC60034-30 high efficiency standard (IE3). It has high operational safety, excellent performance, low noise and vibration and meets the need of environment protection.

FL series premium efficiency three phase asynchronous motor

FL series premium efficiency three phase asynchronous motor is a kind of totally enclosed fan-cooled squirrel-cage induction motor. FL series motors have lots of features such as better premium efficiency and energy saving than IE2 series, excellent performance, low noise and vibration, high reliability, easy operation and etc.

Brake motor

Electromagnetic braking induction motors is a kind of totally enclosed fan-cooled squirrel-cage three phase asynchronous motors. It was designed according to IEC standard and has a lot of features such as prompt braking, compact structure, high efficiency, energy saving, high reliability, large starting torque etc. Besides, the brake of the motor has a manual release device, which allows the brake a junction of both manual release and electromagnetic release and is convenient for operation.

NEODUTA CENTRA HYDRAULIC INDONESIA, PT

1031

Manufacture of Muffler Part, Fiberglass, And Component Heat Resistance And Sound Absorption

1. GLASS WOOL FELT
2. GLASS FIBER MOLDING
3. STAINLESS STEEL (SUS) MESH MOLDING
4. METAL PRESS & WELDING
5. HOTMELTED LAMINATION
6. COATING & LAMINATING ADHESIVE

GLASSWOOL FELT

1. Excellent heat-resistance, flexibility, molding, press are available with various binder
2. Excellent sound absorption properties.
3. Insulation for boiler, engine, silencer
4. Heat resistance gasket, packing

GLASS FIBER MOLDING

1. Good for exhaust system silencer parts of automobile and insulation of boiler, heater.
2. Molded with inorganic resin using our glass fiber mat, silica mat for base material.

COATING & LAMINATING ADHESIVE

Own coating & laminating machine for direct coating and laminating. Adhesive coating and laminating web lines are a primary component of New Era Converting's product offering. As with all of our equipment, each machine is purpose built for your application, and can be designed for a variety of substrates such as film coating, fabric coating, foam coating, foil coating, paper coating, rubber coating and even flexible glass or rigid board substrates. If your product is run roll to roll or roll to sheet, chances are we have built equipment for a similar web converting application.

NORD DRIVESYSTEMS INDONESIA, PT

INDONESIA

818

NORD DRIVESYSTEMS Group - innovative drive solutions

As a system provider of innovative drive solutions with competence in more than 100 industries, we provide you with flexible service of the highest quality. NORD has 48 subsidiaries in 36 countries and further sales partners in more than 50 countries. They provide on-site consulting, assembly centres, technical support and customer services.

NORD INDUSTRIAL GEAR UNIT

Extremely high output torques, quiet running and a long service life: These are the excellent features of industrial gear units from NORD DRIVESYSTEMS.

NORDBLOC.1® helical in-line geared motor

The NORDBLOC.1® helical in-line gear unit with its smooth surface is an innovative drive solution for all applications where cleanliness is essential. These advanced and patented gear units do not have installation openings. This increases the stability of the product and at the same time provides a smoother surface on which neither liquids nor solid materials can accumulate.

NORD FREQUENCY INVERTERS

The NORDAC PRO is a frequency inverter for all drive applications. Even in the basic SK 500P version, the NORDAC PRO provides great versatility. The advanced SK 530P version extends this scope and can be functionally extended with optional SK CU5 modules. The SK 550P has an integrated multi-protocol Ethernet interface for efficient connection to Ethernet-based control systems. Easy operation of the NORDAC PRO is achieved with a Bluetooth interface, an SD memory card as the storage medium for parameters, firmware and operating data, as well as a USB interface which enables parameterisation of the inverter "in the box". Use of the latest components enables a very compact design and therefore space-saving installation.

PAMY PNEUMATIC

INDONESIA

187

Pamy Pneumatic Indonesia didirikan pada tahun 1999 yang merupakan produsen komponen pneumatic. Pamy Pneumatic Indonesia mengembangkan komponen pneumatic untuk memenuhi kebutuhan pelanggan di semua industri. Pamy Pneumatic Indonesia mempunyai cabang dikota-kota besar Indonesia diantaranya Jakarta, Surabaya, Semarang, dan Bandung. Sebagai spesialis pneumatic kita menyediakan item-item dengan sistem Ready Stok. Pamy Pneumatic Indonesia berusaha untuk memahami kebutuhan pelanggan secara menyeluruh.

AIR CYLINDER PNEUMATIC MSC

Cylinder pneumatic (MSC) ini merupakan alat atau perangkat yang sering kita jumpai pada mesin – mesin industri, baik itu dalam industri otomotif, industri kemasan, elektronik, dan berbagai industri maupun instansi – instansi yang lain. MSC biasa digunakan untuk menjepit benda, mendorong mesin pemotong, penekan mesin pengepresan, peredam getaran, pintu penyortiran, yang berfungsi mengkonversi tekanan udara atau energi potensial udara menjadi energi gerak atau kinetik.

FITTING MPC

Fitting pneumatik bertugas untuk menghubungkan berbagai elemen dalam sistem pneumatic, seperti pipa dan, selang. Jenis utama dari fitting pneumatic, yaitu fitting konektor.

Straight fitting (MPC) digunakan untuk menghubungkan dua bagian pipa atau komponen lain secara langsung tanpa adanya sudut. Ada berbagai jenis material yang dapat digunakan untuk membuat Straight seperti besi, stainless steel, atau bahan lain yang sesuai dengan sistem perpipaan.

SOLENOID VALVE 5/2 4V210-08

Solenoid Valve 5/2 (4V210-08) merupakan katup listrik dimana coil yang dimiliki berfungsi untuk penggerak ketika coil tersebut mendapatkan supply tegangan. Coil yang mendapat tegangan akan diubah menjadi medan magnet sehingga dapat menggerakkan plunger pada bagian dalamnya, saat plunger berpindah posisi maka pada lubang keluaran dari solenoid valve pneumatic akan keluar udara bertekanan yang berasal dari supply (service unit), pada umumnya solenoid valve pneumatic ini mempunyai tegangan Dc 24v dan Ac 220v.

INDONESIA

1102B

Radiant Jaya Bersama (RJB) is a member of Riyadi Group. Our head quarters located in Wisma 47, Central Jakarta. RJB is distributor of industrial engineering tools. RJB has several brands, specially Nittokohki. Nittokohki comes from Japan. Nittokohki has 5 categories as follow coupler, Power Tools, Machine Tools, Medo Blower and Electric Screwdriver Delvo. In addition RJB is also selling Rivit, Xaloy, Hose (Hakko, Togawa, Bryan), Ohtake

Electric screwdriver delvo, Coupla, Power Tools and Machine Tools

An electric screwdriver that is used for screwing bolts/mounting bolts with precision. Connections / disconnections of various pipings such as air, water, oil and gas. Tools used for drilling, perforating, turning, grinding, filing, and Cleaning burns

INVANCE

PLC, INVERTER, SERVO DRIVE & Srv.MOTOR, HMI

Doosan Robotic

Doosan Robotics is a leading collaborative robot (cobot) manufacturer, empowering people to achieve higher levels of efficiency and creating immediate productivity gains for organizations.

RINCO ULTRASONICS

MALAYSIA

1116

RINCO ULTRASONICS is one of the world's leading companies in the fields of ultrasonic welding and ultrasonic cutting. Ultrasonic technology makes it possible to achieve virtually perfect welding and cutting results while also guaranteeing cost-effectiveness and sustainability. The precision of ultrasonic welding and cutting is highly valued across a range of different sectors: the automotive, food processing, medical technology and textile industries.

STANDARD 3000 SERIES

The ultrasonic welding machines in the Standard series with pneumatic drive are ideal for welding, cutting and punching thermoplastic moulded parts, non-wovens and textiles as well as films, or for embedding metals in plastic. Standard models can be used for high-precision machining of parts made from plastic with designs of average complexity.

RIYADI PUTRA MAKMUR, PT

INDONESIA

1102A

From simple shop in 1989 Riyadi Putra Makmur has grown to become the sole agent and distributor of various leading international brands. Integrity and reliability are the main values of our company as a world-class sole agent and distributor. Having a head office in Jakarta, we continue to grow by opening branch office and developing sales networks through out the archipelago. We also provide a comprehensive support and after sales service for our customers to ensure our customers satisfaction.

SCP AUTOMATION (M) SDN BHD

MALAYSIA

315

SCP AUTOMATION IS A PREMIER PROCESS COOLING MANUFACTURER BASED IN KUALA LUMPUR, MALAYSIA. WITH ALMOST 30 YEARS OF EXPERTISE, WE HAVE ESTABLISHED OURSELVES AS A TRUSTED PROVIDER OF HIGH-QUALITY COOLING SOLUTIONS. OUR SPECIALIZATION LIES IN THE PRODUCTION OF A WIDE RANGE OF PRODUCTS, INCLUDING WATER CHILLERS, DEHUMIDIFIERS, AND PANEL COOLERS. MOREOVER, WE GO BEYOND STANDARD OFFERINGS BY OFFERING BESPOKE CHILLERS TAILORED TO MEET INDIVIDUAL CUSTOMER NEEDS. COMMITTED TO EXCELLENCE AND DRIVEN BY INNOVATION, WE CONSISTENTLY DELIVER DEPENDABLE COOLING SOLUTIONS TO DIVERSE INDUSTRIES. OUR DEDICATION TO CUSTOMER SATISFACTION SETS US APART AS A RELIABLE PARTNER IN THE FIELD OF PROCESS COOLING.

SCP INDUSTRIES WATER CHILLER
SCP INDUSTRIES WATER CHILLER, PROUDLY MANUFACTURED IN MALAYSIA, OFFERS A VERSATILE SOLUTION FOR A WIDE RANGE OF APPLICATIONS. IDEAL FOR PLASTIC MOLDING, FOOD PROCESSING, ELECTROPLATING, AND MEDICAL INDUSTRIES, OUR CHILLER EFFICIENTLY PRODUCES COLD WATER AS LOW AS -25°C. SAFETY IS A TOP PRIORITY, WHICH IS WHY OUR CHILLERS COME EQUIPPED WITH RELIABLE DEVICES TO PROTECT THE COMPRESSOR AND WATER PUMP. WE HAVE THOROUGHLY TESTED AND ENSURED THE RELIABILITY OF EACH COMPONENT, MAKING IT EASY TO SOURCE AND MAINTAIN. COUNT ON SCP INDUSTRIES WATER CHILLER FOR DEPENDABLE PERFORMANCE AND ROBUST COOLING CAPABILITIES.

SCP INDUSTRIES DEHUMIDIFIER
SCP INDUSTRIES HEAVY DUTY DEHUMIDIFIER, PROUDLY MADE IN MALAYSIA, IS SUITABLE FOR A WIDE RANGE OF APPLICATIONS, INCLUDING FOOD INDUSTRIES, ELECTRIC CONTROL ROOMS, AND SPARE PARTS STORAGE ROOMS. OUR DEHUMIDIFIER IS CAPABLE OF ACHIEVING HUMIDITY LEVELS AS LOW AS 40% RH. OPERATING THE DEHUMIDIFIER IS SIMPLE; JUST CONNECT THE POWER AND TURN IT ON. ADDITIONALLY, OUR DEHUMIDIFIER IS EQUIPPED WITH SAFETY FEATURES TO PROTECT ITS FUNCTIONALITY. WE HAVE THOROUGHLY TESTED THE RELIABILITY OF EACH COMPONENT, ENSURING EASY AVAILABILITY FOR REPLACEMENTS. TRUST SCP INDUSTRIES HEAVY DUTY DEHUMIDIFIER FOR EFFICIENT OPERATION, DEPENDABLE PERFORMANCE, AND READILY ACCESSIBLE SPARE PARTS.

SCP INDUSTRIES PORTABLE AIRCOND
SCP Industries Heavy Duty Portable Air Conditioner, proudly made in Malaysia, is suitable for a wide range of applications, including food industries, electric control rooms, and spare parts storage rooms. Our portable air conditioner is capable of cooling temperatures as low as 18°C. Operating the unit is simple; just connect the power and turn it on. Additionally, our portable air conditioner is equipped with safety features to ensure its protection. We have thoroughly tested the reliability of each component, making it easy to source replacements when needed. Trust SCP Industries Heavy Duty Portable Air Conditioner for efficient cooling, dependable performance.

Desain suspensi menggunakan sistem penggerak, memastikan kontak roda dan tanah baik, kelincihan kemudi, pengoperasian yang nyaman. Pemeliharaan: Motor AC, tanpa sikat, bebas perawatan, sangat menghemat biaya. Buka papan penutup belakang terintegrasi, membuat perakitan perbaikan dan pemeliharaan sangat nyaman. Tampilan pengukur daya yang akurat di lingkungan yang keras, dan ketika kegagalan forklift dapat menampilkan kode kesalahan, perawatan yang mudah.</p>	 <p>Elektrik Stacker Elektrik Stacker CTD-C</p> <p>Keuntungan: Sistem kemudi bantuan rantai pegangan-kastor sangat mengurangi intensitas tenaga kerja. Jenis garpu yang dapat disesuaikan secara keseluruhan, yang dapat diturunkan ke tingkat kaki yang sama. Dilengkapi dengan katup tahan ledakan, terhadap jatuhnya garpu yang tiba-tiba dan mencegah operator dari bahaya. Rantai menghubungkan roda samping dan pegangan, mudah untuk kemudi. Rem kaki yang mudah dioperasikan. Perangkat perlindungan over-discharge sangat memperpanjang waktu penggunaan baterai. Fungsi angkat adalah elektro hidrolik sementara gerakannya manual, cocok untuk semua kebutuhan pengangkatan Anda (merak, rak, membongkar dll). Desain kompak dengan konstruksi baja yang kuat.</p>		

EXHIBITING COMPANIES

TAKAMAZ INDONESIA, PT

INDONESIA

718

PT. TAKAMAZ INDONESIA is the Indonesian subsidiary of the Japanese CNC lathe manufacturer "Takamatsu Machinery". The company keeps stocks in Indonesia the GSL series, which offers both low prices and high machining capabilities, and the XT series, which achieves process integration through multitasking. It proposes automation equipment and production lines that match sites.

CNC Precision Lathe XTS-6

Smallest floor space in the 6-inch class

- Cycle times shortened by increasing speed
- Energy savings when machine is stopped
- Loader energy savings (F Loader)
- Efforts to reduce thermal displacements

CNC Precision Lathe GSL-10H

- Stroke adjustable chucking cylinder equipped as standard
- Space-saving design (machine width: 1,610mm)
- Maintenance equipment is located at the front and rear. Parallel layouts possible
- Equipped with start-up condition confirmation function
- Equipped with software with enhanced safety functions to prevent machine trouble.
- Operator-friendly design (the operation panel is placed at a height that makes it easy also for women to work)
- High maintainability (coolant tank can be easily cleaned by simply removing the lid)

TRAKINDO UTAMA, PT

INDONESIA

1002

With a proud history of more than 50 years, Trakindo has grown today into a company that actively contributes to Indonesia's national development. Committed to delivering excellence, enabling progression towards success, Trakindo is advancing its employees, customers, partners, society and shareholders. Trakindo offers a comprehensive line up of Caterpillar heavy equipment include engine that are designed to work hard and built to last. Committed to delivering excellence towards customer success

CAT(R) DP30N Lift Truck

Built to perform, Cat(R) lift trucks delivers day after day by providing uncompromising quality to meet the demands for diverse material handling applications.

TRATAS MEGAH LESTARI, PT

INDONESIA

916

PT. Tratas Megah Lestari has become the official partner for Summittech Professional gloves to expand and market its safety gloves in Indonesia. In 2018, Summirubber Malaysia Sdn. Bhd is collaborating with PT. Tratas Megah Lestari (PT. TML) in Indonesia to expand its market through out Indonesia market. By collaborating together, PT. Tratas Megah Lestari is becoming the official partner with Summittech Professional to develop, market and promote Summittech gloves to all Indonesia Market.

We are biggest Biggest Distributor 3D Printer, 3D Scanner, and 3D Filament in Indonesia. We are also Distributor for CNC Router Machine, CO2 Laser, dan Fiber Laser Cutting Marking. We distribute biggest brands, such as Creality, Anycubic, Flashforge, Epson, Tormach, Einscan, RECI, Raycus, Formlabs, and many more. We can provide custom machine to fulfill customer needs. Contact us via whatsapp 081333000786 for more information. Our customer include big companies and government institutions.

3D Printer
Machine to print 3D Object with Plastic material from 3D Filament

3D Scanner
Machine to scan 3D object become a 3D File that can be modified to create better model or use as virtual display

CO2 Laser Cutting
Machine to cut and engrave different kinds of material, from acrylic, wood, leather, foam, and many more

UNITED HEATER

INDONESIA

137

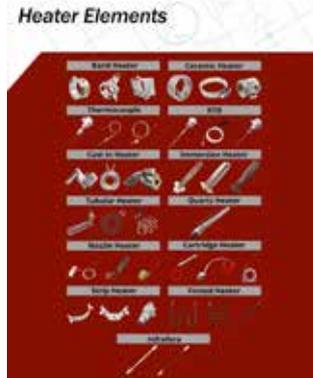

UNITED HEATER

Usaha Saudara Mandiri Ltd. established since September 1992. Starting from a small worktshop in Tangerang, nowadays transformed into an integrated factory equipped with high-technology machines to produce high quality heater products with the name United Heater.

Usaha Saudara Mandiri Ltd. with United Heater brand consistency maintaining the core of business :

- Manufacturing Electric Heater Elements and Furnace & Oven
- Mechanical & Electrical Engineering
- Construction
- Trading

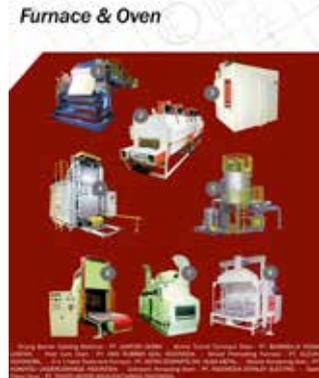

As a leading and reliable heater company, Usaha Saudara Mandiri Ltd. still committed to provide total solutions to the customers, to ensure on time delivery and after-sales services to the domestic and overseas companies.

Heating Elements

We make custom heating elements such as :

- Band Heater, Ceramic Band Heater, Cast In Heater, Cartridge Heater, Finned Heater, Immersion Heater, Infrapara, RTD, Thermocouple, Tubular Heater, etc.

Furnace & Oven

We make custom furnace & oven for your industry application.

WARINGIN WAREHOUSE

INDONESIA

205

Waringin Warehouse is a company engaged in the field of warehouse and industry which has had many projects in big cities throughout Indonesia

Central Industrial Park

The warehouse is located in Sidoarjo and has a land area of 300HA. There are 2 types of Warehouses and Plots of Land.

Sentral Margomulyo Permai

Exclusive warehousing located in a strategic location and close to the Tandes Surabaya toll gate

YAMAZEN INDONESIA, PT

INDONESIA

615

We are trading of Machine Tools (such as Brother, Cincom, Miyano, Takisawa, Takamaz, Okuma, Fanuc, Yasda, Toyo, Muratec, Mazak, Nidec, Nidec OKK, Mitsubishi, DMG Mori, CGS), Specialized purpose machine, Showroom & Engineer Service, Cutting Tool, Holder, Jig (such as Nikken, Yukiwa, Kyocera, NTK, MST, Union Tool, Mitsubishi, Yukiwa, Nabeya), Environmental Equipment (such as Amano, Suiden, Shizuoka, OHM), Measuring & Other Equipment (such as Mitutoyo, Metrol, CKD, JAM, Trusco)

BROTHER

A pallet changer is standardly equipped for This model of SPEEDIO series that achieve overwhelming productivity. Quest for "Wasted Time = Zero"

TAKISAWA

New model of 8" TCN chosen around the world for its high cutting capability and versatility!

MITUTOYO

Smart Measuring System allows on-line monitoring of the operational status of a measuring machine and visualization of measurement data.

PT. WILBERT PERKASA TEKNIK carries the TRAFTEK brand as a solution for industrial air circulation which is an innovative and high-quality business solution, always ready to provide the best service. Supported by a professional and experienced team, we focus on developing trust for harmonious and sustainable business cooperation.

INDUSTRIAL EXHAUST FAN

Traftek Roof Cone Fan (TT-RCF) is a circulation system that is applied on the roof. Designed with the latest technology. Traftek Roof Cone Fan (TT-RCF) is a superior product that is trusted to improve circulation systems for industries. Serves to remove heat, smoke, dust and odors from the industry. It has a large capacity of 45000 cmh. Made from fiberglass

INDUSTRIAL HIGH VOLUME LOW SPEED FANS

Traftek HVLS Fans (High Volume Low Speed) are industrial fans that can produce high volume air at low speeds. Traftek HVLS Fans are designed with the latest technology and are superior products because they can work very optimally with a high level of industrial efficiency.

Traftek HVLS Fans can circulate air over a very large area with relatively low electricity consumption.

With a large unit capacity, wide area coverage, accompanied by relatively low electricity consumption, Traftek HVLS Fans have high efficiency which are suitable for application in Factories, Warehouses, Hangars, Stations, Airports, Shopping Centers, Recreation Areas, and other Public Areas

INDUSTRIAL EVAPORATIF AIR COOLER

Traftek Air Cooler is designed with the latest high-efficiency technology as a more economical solution to using air conditioners / air conditioners. Equipped with a clean and safe pre-air filter.

Traftek Air Cooler can produce cooler and healthier air, supported by the latest design and technology.

Traftek Air Cooler is very easy to maintain and more durable.

Safety is our first priority™

YOKE Industrial Corp. is Taiwan based manufacturer of lifting fittings for chain, wire rope and webbing slings for more than 38 years. Certified by ISO 9001 as well as DNV, API, ABS and DGV. YOKE supply digital product line and qualified products i.e. Lifting Point (YP), DA shackle (DNV 2.7-1 approved), Snatch Block (YSB) and G100 lifting components. As a proponent of "safety" as a value, the company has embraced "pursuit of quality perfection, constant innovation and sustained development.

Digital Lifting Point

YOKE Digital Lifting Point offers a considerable side loading feature for lifting across industries. Turning, rotating and tilting are commonly required in lifts which increase the risk level of the lift, causing the bolt to back out and failing the lift. This danger can happen with standard eye bolts. However, Digital Lifting Point bring you the best solution with considerable safety feature.

Digital Key Eye Point

YOKE Digital Key Eye Point offers a risk-free and cost-saving solution for lifting across industries. Turning, rotating and tilting are commonly required in lifts which increase the risk level of the lift, causing the bolt to back out and failing the lift. This danger can happen with standard eye bolts. However, Digital Key Eye Point bring you the 360° rotation solution with considerable safety feature.

RFID SupraTag

The YOKE SupraTag as part of a digital platform can ensure:

All manufacturers can add all their digital documentations, standards, pre-use guidance

The equipment is safe and suitable for service

Safe use instructions are available to every user who handles the equipment fitted with the Supratag or embedded chip

The equipment is in a safe condition and has been inspected and thoroughly examined whether it is safe to use

Records of conformity, test and examination are digitally available

Appropriate National and International Standards, industry guidelines and recommendations or employers own requirements are met – EN818, EN1677, ASME, LOLER, LEEA etc

YOOSUNGENG CO., LTD

KOREA

184

YOOSUNGENG
(주)유성이엔지

As a provider of industrial marking machine and engraving, laser machine and automated solutions, Yoosungeng Co.,Ltd, Provides marking, engraving, and laser machine solutions suitable for various industrial environments and customer requirements.

With our experiences and technologies, we will provide high-performance, high reliability and fast services for the belief in customer's success altogether to promise you that we will do our best to become a company that grows with our customers.

M-mark portable marking machine

Battery-type wireless Portable Dot peen marking machine This is a compact battery-type wireless portable dot peen marking machine that allows marking process with one hand, so it is useful for marking on heavy objects or in the outside working yard.

Main features are Lightweight 2.4kg (M-mark53), App software connection(Wi-Fi hotspot), Low maintenance cost(no need controller), Reliable durability.

YLD Handheld laser marking machine

High-quality Laser Marking Machine Built-in high-speed galvanometer scanner in small size, it has features of fast speed and accurate positioning. It has a long lifetime and is maintenance-free.

This hand-held laser marking machine is the industry's most complete handheld fiber laser marking and engraving system. The standard configuration of the hand held laser marking machine allows for many different options to meet any production need. It can be moved easily for convenient operation from any location and is capable of marking equipment and materials that would not fit into traditional marking systems. Additional features include touch screen for operation and ease of installation.

GYMill Portable CNC Milling

GYMill is Portable CNC Milling Machine for Shipbuilding, Powerplant, Oil and Gas industries. It's a highly portable 3-axis CNC milling machine to remove the broken studs and repairing damaged threads.
